This jet is present on every passenger's whishlist. Why? Simply because it's the most successful luxurious light business jet that is in production currently. It can transport small groups, (8 ppl. maximum) and provides exceptional luggage space, with it's 2.4 m3 compartment.

Embraer Jet Phenom 300

Cabin

-  Suitable for 8 passengers
-  Large baggage compartment
-  Adjustable leather seats
-  Room with excellent view
-  Quiet
-  Enclosed lavatory

The 300 can speed up to Mach 0.80, features a quieter cabin than ever before, has best-in-class cabin altitude, and now offers autothrottle for a more automated and intuitive flying experience.

The Phenom 300 also delivers on the side of safety measures, with the runway overrun awareness and alerting system (ROAAS) which provides timely alerts to the crew to reduce the risk of overrun during landing.
